

## **Commercial Contamination Fee**

Burrtec is working in partnership with the city of Palm Desert to raise awareness of the importance of recycling, increase recycling participation, and eliminate contamination from recycling and organics collection containers. This initiative is pertinent to the efforts of your community's continued recycling success as the state of California mandates become more critical. Please review the details below regarding Burrtec's contamination fee/policy.

### **Contamination Fee Policy**

Trash and other contaminants in the recycling or organics collection container(s) could result in a fee and non-collection due to contamination. After the first warning, customers may be charged a contamination fee and the container may not be serviced until contaminants are removed. Contamination fees are based on container size and range from \$41.73 to \$115.93.

**Please note:** A contamination fee will be automatically assessed if hazardous or biohazardous materials are placed in any collection container.

Not sure about what goes in each container? Visit [www.burrtec.com](http://www.burrtec.com) or call Burrtec Customer Service at (760) 340-2113 for assistance. As always, thank you for your continued support and cooperation!
