

La Crescenta- Montrose Residents

Winter Storm Advisory

Storms with heavy rainfall may cause debris flows and many other issues in our streets. In order to prevent trash and recycling carts from adding to the issue follow these guidelines:

- Be aware of storm weather forecasts.
- Be aware of potential storm water flows in and around your property.
- Avoid placing carts and bulky items where flows can create hazards. In swift moving waters, these items can float and rush out into the street.
- Place trash and recyclables in bags and then in carts. This will minimize spillage onto streets.
- If your area cannot be serviced due to weather conditions, place carts out the following week along with any additional bags of trash and recyclables.
