Help Keep Food Waste Recycling Clean!

Senate Bill 1383 requires a **75% reduction in organic waste disposal**. All residences and commercial businesses are required to participate and **recycle organic waste including food and landscape waste**. Food waste is collected, recycled and made into new products such as compost, mulch and renewable gas. **During the sorting process workers must remove non-acceptable material such as trash, plastic containers, glass and other contaminants.**

Keeping your containers free of contaminants will help sustain recycling costs and keep material clean to create new products.

Spread the message, "Help keep your food waste recycling clean!"

Commercial Trash, Recycling, and Organic Waste Assessments

Burrtec offers waste assessments at no additional charge to assist our customer's specific business needs and create sustainable long-lasting solutions. Please call customer service at (760) 245-8607 or visit, https://www.burrtec.com/request-services/ to request a waste assessment.

MISSING BARRELS

The State of California has passed laws regulating the disposal and processing of Solid Waste including Trash, Recyclables and Organics. In turn, local jurisdictions have now mandated the separate collection and processing of these materials.

While metal bin containers are less likely to be stolen, barrels can be easily rolled away or placed in a vehicle. Please keep barrels in a locked enclosure/building or secure them with a lock and chain to a fixed structure until service day and re-secure them once service is completed. Please contact customer service to provide your key/lock combination for the container.

Please note, Burrtec does not supply the lock/key.

Please be aware that you are ultimately responsible for securing these containers and replacement costs will be charged to your account for missing or damaged containers.

BURRTEC
"We'll Take Care Of It"

IMPORTANT!

We recently observed contamination in your container checked below.

We found the following contamination:

1. Trash — Such as animal waste, plastic bags, wrappers, diapers → GRAY/BLACK CONTAINER ONLY
2. Recyclables — Rigid plastics, glass, metal, paper and cardboard → BLUE CONTAINER ONLY
3. Food Waste — Includes food soiled paper → BROWN CONTAINER ONLY
4. Green Waste — Must be untagged → GREEN CONTAINER ONLY
5. Electronics or Hazardous Waste — Batteries, paint, electronics are not allowed in any container → NOT ALLOWED IN ANY CONTAINER

Future contamination may lead to the container not being serviced and/or extra fees on your account. Please call our office if you have any questions. Thank you.

State Required Contamination Monitoring of Recyclables

California state law SB 1383 requires jurisdictions to monitor trash, recycling, and organics barrels to minimize contamination. Trash and other contaminants in the recycling or organics collection container(s) could result in a fee and non-collection due to contamination. If contamination is found, contamination tags (as shown to the left) will be affixed to the container lid. After the first notice, customers may be charged a contamination fee and the container will not be serviced as recyclable; it will be subsequently serviced as trash. Please note: the contamination fee will be automatically assessed if hazardous or bio-hazardous materials are placed in any collection container. Not sure about what goes in each container? Contact our Burrtec Customer Service at (760) 245-8607 for assistance. As always, thank you for your continued support and cooperation!

Holiday Schedule

Please note that services are interrupted on the following holidays:

Memorial Day | Independence Day | Labor Day
Thanksgiving Day | Christmas Day | New Year's Day

When the holiday falls on a weekday, collections for the remainder of the week will be delayed by one day. There is no service interruption or delay when the holiday falls on a Saturday or Sunday.

Attention Food Service Providers

Existing state law requires certain businesses to implement a recycling and organics program. The law requires food establishments that provide trash containers for products purchased and consumed on the premises to also provide properly labeled containers for recyclables and organic waste (food waste). These containers must be placed adjacent to trash containers.

AB 827 applies to limited-service restaurants such as those restaurants where customers order and pay at the counter and bus their own tables after eating. The law will affect restaurants, malls, and other businesses that serve food. Full-service food establishments that do not provide access to trash containers for products consumed on the premises will be exempt, as food workers will likely separate post-consumer food waste and recyclables in the dish washing areas.

Highlights:

- AB 827 requires collection containers at the front-of-house to be visible, accessible and labeled.
- This law affects businesses that sell products that are meant for immediate consumption.
- Full-service restaurants where employees bus and clean tables are exempt but must provide labeled collection containers adjacent to trash containers for employees/staff to separate post-consumer recyclables and organics.

For further information regarding this law, please visit https://www.calrecycle.ca.gov

YOUR SORTING GUIDE - WHAT GOES WHERE?

Black Bin/Barrel is for **trash**

BAG ALL TRASH - DO NOT ADD HAZARDOUS WASTE

BLACK CONTAINER GUIDE

YES

- ✓ Cactus
- ✓ Clothing
