Attention Food Service Providers

Existing state law requires certain businesses to implement a recycling and organics program. The law which went into effect July 1, 2020, requires food establishments that provide trash containers for products purchased and consumed on the premises to also provide properly labeled containers for recyclables and organic waste (food waste). These containers must be placed adjacent to trash containers.

AB 827 applies to limited-service restaurants such as those restaurants where customers order and pay at the counter and bus their own tables after eating. The law will affect restaurants, malls, and other businesses that serve food. Full-service food establishments that do not provide access to trash containers for products consumed on the premises will be exempt, as food workers will likely separate post-consumer food waste and recyclables in the dish washing areas.

Highlights:

- AB 827 requires collection containers at the front-of-house to be visible, accessible and labeled.
- This law affects businesses that sell products that are meant for immediate consumption.
- Full-service restaurants where employees bus and clean tables are exempt but must provide labeled collection containers adjacent to trash containers for employees/staff to separate post-consumer recyclables and organics.

For further information regarding this law, please visit <https://www.calrecycle.ca.gov>

State Required Contamination Monitoring of Recyclables

California state law SB 1383 requires jurisdictions to monitor trash, recycling, and organics barrels to minimize contamination. Trash and other contaminants in the recycling or organics collection container(s) could result in a fee and non-collection due to contamination. If contamination is found, contamination tags (as shown to the left) will be affixed to the container lid. After the first notice, customers may be charged a contamination fee and the container will not be serviced as recyclable; it will be subsequently serviced as trash. Please note: the contamination fee will be automatically assessed if hazardous or bio-hazardous materials are placed in any collection container. Not sure about what goes in each container? Contact our Burrtec Customer Service at (760) 245-8607 for assistance. As always, thank you for your continued support and cooperation!

BURRTEC
"We'll Take Care Of It"

IMPORTANT!
We recently observed contamination in your container checked below:

We found the following contamination:

- 1. Trash
Such as general waste, plastic bags, wrappers, diapers
- 2. Recyclables
Rigid plastics, glass, metal, paper and cardboard
- 3. Food Waste
Includes food soiled paper
- 4. Green Waste
Must be unbagged
- 5. Electronics or Hazardous Waste
Batteries, pens, electronics are not allowed in any container

Future contamination may result in the container not being serviced and/or extra fees in your account. Please call us if there are any questions. Thank you!

Edible Food Recovery Requirement

Is Your Business Affected?

Certain businesses have requirements and responsibilities as it relates to edible food recovery, such as:

- Not intentionally spoiling edible food that is capable of being recovered by a food recovery organization or service
- Making arrangements via contract with a food recovery organization or service to recover edible food that would be redistributed for human consumption

TIER 1 Businesses - Effective January 1, 2022

- Food distributors
- Wholesale food vendors
- Food service providers
- Grocery stores and supermarkets (10,000 square feet or greater)

TIER 2 Businesses - Effective January 1, 2024

- Hotels with at least 200 rooms and an on-site food facility
- Restaurant facilities (5,000 square feet or larger, or seating more than 250)
- Local education agencies with an on-site food facility
- Healthcare facilities with an on-site food facility and 100+ beds
- Large venues (including shopping centers and malls) and events with 2,000+ daily visitors
