Enclosure Maintenance

Follow these simple tips to keep your business enclosures clean:

- Break down all cardboard. This helps prevent overflow that causes the wheels to get stuck and helps save room in the recycle bin for more recyclables.
- Pick up litter in and around your enclosure and parking lot. Ensure that no litter enters the streets or the storm drain system.
- If your bin is full before your next scheduled pickup, you can call Burrtec and request an additional pick up for an extra fee.
- Do not fill dumpster bins or compactors with liquid waste or hose it out. Keeping liquids out helps reduce leakage into the surroundings as well as reduces odor.
- Sweeping instead of hosing the enclosure with water not only conserves water, it also prevents any material from entering the storm drain system.

SENATE BILL 1383 ORGANICS DIVERSION AND RECYCLING ARE YOU IN COMPLIANCE?

HOW DOES THIS AFFECT MY BUSINESS OR PROPERTY?

Businesses and multifamily properties are required to:

- Subscribe to trash collection service and recycling and/or organic waste collection services provided by Burrtec, unless approved for a self-haul exemption or de minimis or space constraint waiver by the County. (Solid waste collection containers must be provided by Burrtec. If lost or stolen, customers are responsible for container replacement cost).
- Annually provide information to employees, contractors, tenants, and customers about recycling, organic waste collection requirements and proper sorting of materials.
- Ensure employees, contractors, tenants, and customers have access to an adequate number, size, and location of containers with appropriate labels and container color.
- Provide containers for the collection of all waste streams including trash, food waste and recyclables in all areas where disposal containers are provided for customers, except for restrooms. The County of San Bernardino Solid Waste Management Division (SWMD) can provide your business with indoor recycling and/or food waste collection containers at no additional charge. Call SWMD at (909) 386-8701 and ask to speak to a Recycling Specialist for more information.
- Provide information to new tenants before or within 14 days of occupation of the premises.
- Prohibit employees from placing recycling and organic waste in a container not designated to receive those materials types.

EDIBLE FOOD GENERATOR TIPS TO PREVENT FOOD WASTE

Here are some ways businesses can reduce food waste:

- **Plan and track:** Plan meals based on demand and track waste to identify areas for improvement.
- **Menu design:** Create menu specials that use ingredients that are close to their expiration date. Remove items that don't sell well.
- **Staff training:** Train staff on how to minimize food waste, including proper temperature management and stock rotation.
- **Store food properly:** Store food in the refrigerator and use airtight containers for grains.
- **Monitor production:** Weigh food at each stage of production to identify and correct production loss.

WHY IS ORGANIC WASTE A PROBLEM?

- The state agency CalRecycle reports that organic waste in landfills accounts for 20 percent of the methane gas generated in California and that methane emissions reductions help in combating climate change.

- ✗ Liquids
- ✗ Plastic
- ✗ Raw meat & poultry
- ✗ Raw seafood
- ✗ Trash

**Such as paper towels and napkins*

California produces nearly half of the nation's fruits and vegetables, yet 1 in 8 Californians struggle with food insecurity, or lack of access to food that one needs to live a healthy lifestyle.

With the passing of Senate Bill 1383 (SB 1383), the State of California has mandated surplus food recovery to help combat the effects of methane gas on the environment. The bill requires commercial edible food generators to:

1. Arrange to recover the maximum amount of excess edible food that would otherwise go to landfills.
2. Establish a written agreement with any/all partnering organizations/services that accept edible food from your business.
3. Maintain records of all edible food recovery activities and receipts.
4. Provide copies of written agreement(s) with food recovery organization(s) each year.

Is Your Business Affected?

TIER 1 Businesses

- Food distributors
- Wholesale food vendors
- Food service providers
- Grocery stores and supermarkets (10,000 square feet or greater)

TIER 2 Businesses

- Hotels with at least 200 rooms and an on-site food facility
- Restaurant facilities (5,000 square feet or larger, or seating more than 250)
- Local education agencies with an on-site food facility
- Healthcare facilities with an on-site food facility and 100+ beds
- Large venues (including shopping centers and malls) and events with 2,000+ daily visitors

FOOD RESCUE RESOURCES

- California Association of Food Banks (cafoodbanks.org)
- Community Action Partnership of San Bernardino County Food Bank (capsbc.org)
- Feeding America (Inland Empire) (feedingamericaie.org)
- Food Finder (foodfinder.us)
