

Education & Training

Implementing a recycle program is the first step. Successful recycle programs require education and training. Burrtec Environmental Specialists will provide training and educational materials. Please contact us at (760) 340-2113 to schedule a waste assessment site visit.

To ensure your business is meeting the State mandated requirements, Burrtec Environmental Specialists are ready to work with you to assess your current program and customize a solution that's right for you.

Burrtec is proud to be your waste and recycling service provider. For over 50 years, Burrtec has consistently provided excellence in service and satisfaction with a strong loyalty to the future of the communities in which we serve.

Burrtec's mission statement "We'll Take Care Of It" encompasses the Burrtec philosophy that shines through to what we value; our customers, our communities, our environment, and each other.

Commercial Waste & Recycling Services

State Mandated Recycling – Know the State Laws

State Law AB 341 (MCR) Mandatory Commercial Recycling

Requires commercial business or multi-family complexes with five (5) or more housing units within one building, that generate four (4) cubic yards or more of commercial solid waste per week to have a recycling program in place.

State Law AB 1826 (MORe) Mandatory Commercial Organics Recycling

Requires commercial businesses or multi-family complexes with five (5) or more housing units within one building, that generate two (2) cubic yards of solid waste or more, to recycle their organic waste material. Organic waste includes green waste, landscape and pruning waste, and nonhazardous wood waste.

State Law AB 827 Front-of-House Waste Collection

Effective July 1, 2020; MCR and MORe covered businesses must provide organics and recycling containers at front-of-house to collect waste generated from products purchased and consumed on the premises.

Full-service restaurants do not have to provide containers for patrons but must provide containers for employees to separate post-consumer recyclables and organics for customers.

Additional information about these requirements are available at www.calrecycle.ca.gov/recycle

Customized Programs

Every business has different waste and recycling needs. Whether you own a clothing store, a restaurant, or anything in between, we offer a wide variety of programs and equipment for all of your waste and recycling needs.

Commercial Trash Services

We offer dark grey bins for regular trash and any items that cannot be recycled.

Bin Sizes range from 2 cubic yard to 6 cubic yards

Bin Handling Instructions:

- Lids on bins should be closed.
- Do not overload the bins. Maximum weight is 500 lbs.

Roll-Off Services

Roll-off containers are available from 20 to 30 and 40 cubic yards and can be used for all levels of waste and recycling disposal. A good option for large retailers, individual manufacturers, land debris clearing and removal, festivals and large events, large retailers, and other large-waste generators.

DO NOT Place the Following in Trash or Recycle Containers: Chemicals, Electronics, Fluorescent Bulbs, Medical Waste, Oil, Paint, Pesticides

Commercial Recycling

Recycling is EASY and businesses may be able to reduce their monthly trash bill by recycling. Recycling is not only good for the environment; it can save you money in the process. Recycling costs less than trash, therefore the more you recycle, the less trash you have which leads to less trash pick-ups.

The following items can be recycled in your white recycle bin:

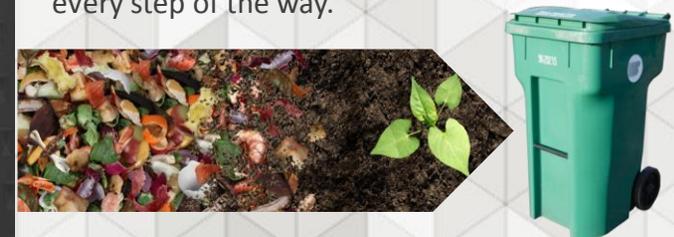

- Paper** – Cardboard, Office Paper, Magazines, Newspapers
- Plastic** – Plastic Bottles & Containers
- Metal** – Tin and Aluminum Cans/Bottles
- Glass** – Bottles and Jars

We offer a range of bin sizes and special services such as cardboard slots and locking bars.

Organic Waste Recycling

For organic generating customers, implementing an organics recycling program is easy with Burretec's Environmental Specialist helping you every step of the way.

65-gallon barrels are used for recycling food and organic materials.
