Spring Cleaning Tips

1. Before dropping off donations call to check business hours and ask if they are able to accept all of the items you have. Be sure to drop off items during business hours. It is illegal to leave donations outside of a closed center, and illegally dumped items could ultimately end up in the trash.
2. Flatten cardboard boxes to create more room in your recycling cart.
3. Utilize your bulky item pick-up services with Burrtec for ewaste and large items that do not fit in your trash cart. Please contact Burrtec customer service for more details.
4. Do not bag recyclables that you are placing in your recycling cart.
5. No wipes down the pipes! Do not flush wipes or paper towels.

FREE Used Oil Filter Exchange and Recycling Event

Senate Bill 1383

The California Senate passed a bill requiring a 75% reduction in organic waste disposal by 2025. All residences will be required to participate in this program to recycle organic waste, including food waste.

Organic Waste that decomposes in a landfill releases a significant amount of greenhouse gas emissions that contribute to public health and safety concerns such as asthma, global climate change, extreme weather, and natural disasters. By composting organic waste, instead of sending it to landfills, we can close the loop on sustainability while creating a nutrient-rich soil amendment that's ready for use in farms and gardens.

Tips to Prevent Food Waste at Home

- Plan ahead: Before you go to the grocery store or order out check the fridge and pantry for anything that needs to be cooked or that you already have and do not need to purchase.
- Serve smart: Aim to cook and serve the right portions for the number of people you are feeding.
- Store food wisely: Different foods require different conditions.
- Check your fridge often: Keep track of what you have and what needs to be used. Eat or freeze items before you need to throw them away.
- Use your freezer: Your freezer can help save your food and time.
