Sustainability Update

The 2022 FOOD WASTE Recycling Program and YOU!

The California Senate passed a bill to **improve air quality and reduce greenhouse gas emissions**. CalRecycle reports that landfilled organic waste (including green waste and food waste) decomposes in landfills and generates greenhouse gases contributing to global climate change. Starting in 2022, all California residents may be required to participate in a Food Waste Recycling Program in order to comply with **Senate Bill 1383**.

Senate Bill 1383 requires a **75% reduction in organic waste disposal statewide by 2025**.
