SENATE BILL 1383 ORGANICS DIVERSION AND RECYCLING ARE YOU IN COMPLIANCE?

WHY IS ORGANIC WASTE A PROBLEM?

- The state agency CalRecycle reports that organic waste in landfills accounts for 20 percent of the methane gas generated in California and that methane emissions reductions help in combating climate change.

HOW DOES THIS AFFECT MY BUSINESS OR PROPERTY?

Businesses and multifamily properties are required to:

- Subscribe to trash collection service and recycling and/or organic waste collection services provided by Burrtec, unless approved for a self-haul exemption or de minimis or space constraint waiver by the County.
- Annually provide information to employees, contractors, tenants, and customers about recycling, organic waste collection requirements and proper sorting of materials.
- Ensure employees, contractors, tenants, and customers have access to an adequate number, size, and location of containers with appropriate labels and container color.
- Provide containers for the collection of all waste streams including trash, food waste and recyclables in all areas where disposal containers are provided for customers, except for restrooms.
- Provide information to new tenants before or within 14 days of occupation of the premises.
- Prohibit employees from placing recycling and organic waste in a container not designated to receive those materials types.

WHAT ARE THE ADDITIONAL REQUIREMENTS?

Certain businesses have additional edible food recovery requirements such as:

- Not intentionally spoiling edible food that is capable of being recovered by a food recovery organization or service.
- Making arrangements via contract with a food recovery organization or service to recover edible food that would be redistributed for human consumption.
