MISSING CARTS

The State of California has passed laws regulating the disposal and processing of Solid Waste including Trash, Recyclables and Organics. In turn, local jurisdictions have now mandated the separate collection and processing of these materials.

While metal bin containers are less likely to be stolen, carts can be easily rolled away or placed in a vehicle. Please keep carts in a locked enclosure/building or secure them with a lock and chain to a fixed structure until service day and re-secure them once service is completed. Please contact customer service to provide your key/lock combination for the container.

Please note, Burrtec does not supply the lock/key.

Please be aware that you are ultimately responsible for securing these containers and replacement costs will be charged to your account for missing or damaged containers.

Help Keep Organics Recycling Clean!

Senate Bill 1383 requires a **75% reduction in organic waste disposal**. All residences and commercial businesses are required to participate and **recycle organic waste including food and landscape waste**. Food waste is collected, recycled and made into new products such as compost, mulch and renewable gas. During the sorting process workers must remove non-acceptable material such as trash, plastic containers, glass and other contaminants.

Keeping your containers free of contaminants will help reduce recycling costs and keep material clean to create new products.

Spread the message, "Only food waste and yard waste in the green container!"

Commercial Trash, Recycling and Organic Waste Assessments

Burrtec offers waste assessments at no additional charge to assist our customer's specific business needs and create sustainable long-lasting solutions. Please call customer service at (661) 222-2249 or visit, <https://www.burrtec.com/request-services/> to request a waste assessment.

State Required Contamination Monitoring of Recyclables

California state law SB 1383 requires jurisdictions to monitor trash, recycling and organics carts to minimize contamination. Trash and other contaminants in the recycling or organics collection container(s) could result in a fee and non-collection due to contamination. If contamination is found, contamination tags (as shown to the left) will be affixed to the container lid. After the first notice, customers may be charged a contamination fee and the container will not be serviced as recyclable; it will be subsequently serviced as trash. Please note: the contamination fee will be automatically assessed if hazardous or bio-hazardous materials are placed in any collection container. Not sure about what goes in each container? See the container guide on page two, visit Burrtec.com/SCV or call Customer Service at (661) 222-2249 for assistance. As always, thank you for your continued support and cooperation!

IMPORTANT!

We recently closed contamination in your container checked below:

☐ 1. Garbage
Such as animal waste, plastic, high, windows, debris
→ *Belongs in BLACK CONTAINER ONLY*

☐ 2. Recyclables
Plastic, glass, metal, paper and cardboard

Holiday Schedule

Please note that services are interrupted on the following holidays:

Memorial Day | Independence Day | Labor Day
Thanksgiving Day | Christmas Day | New Year's Day

When the holiday falls on a weekday, collections for the remainder of the week will be delayed by one day. There is no service interruption or delay when the holiday falls on a Saturday or Sunday.

Attention Food Service Providers

Existing state law requires certain businesses to implement a recycling and organics program. The law which went into effect July 1, 2020, requires food establishments that provide trash containers for products purchased and consumed on the premises to also provide properly labeled containers for recyclables and organic waste (food waste). These containers must be placed adjacent to trash containers.

AB 827 applies to limited-service restaurants such as those restaurants where customers order and pay at the counter and bus their own tables after eating. The law will affect restaurants, malls and other businesses that serve food. Full-service food establishments that do not provide access to trash containers for products consumed on the premises will be exempt, as food workers will likely separate post-consumer food waste and recyclables in the dish washing areas.

Highlights:

- AB 827 requires collection containers at the front-of-house to be visible, accessible and labeled.
- This law affects businesses that sell products that are meant for immediate consumption.
- Full-service restaurants where employees bus and clean tables are exempt but must provide labeled collection containers adjacent to trash containers for employees/staff to separate post-consumer recyclables and organics.

For further information regarding this law, please visit <https://www.calrecycle.ca.gov>

YOUR SORTING GUIDE - WHAT GOES WHERE?

Black Bin/Cart is for trash

BAG ALL TRASH - DO NOT ADD HAZARDOUS WASTE

BLACK CONTAINER GUIDE

YES

- ✓ Cactus or wrap
- ✓ Clothing ✓ Pet waste
