Holiday Schedule

No service on these holidays.

Memorial Day - May 29

Independence Day - July 4

Labor Day - September 4

When the holiday falls on a weekday, collections for the remainder of the week will be delayed by one day. There is no service interruption or delay when the holiday falls on a Saturday or Sunday.

Organics Recycling Requirements - What's Next?

Due to mandatory organics diversion requirements, as a result of Senate Bill 1383, Burrtec will be working with all businesses to ensure compliance effective no later than July 1, 2023. If your business generates food waste or green waste, and does not currently have an organics recycling program, your new service will be implemented automatically over the coming months. Below are steps you must take as a business:

- Business owners and/or managers must provide information to employees, contractors, tenants and customers about recycling, organic waste collection requirements and proper sorting of materials, annually.
- Employees, contractors, tenants, and customers must have access to an adequate number, size and location of containers.
- Collection containers for all waste streams including trash, food waste and recyclables must be provided in all areas where disposal containers are provided for customers, except for restrooms.
- Customer must secure containers. If lost or stolen, customers are responsible for container replacement cost
- Information to new tenants must be provided before or within 14 days of occupation of the premises.
- Prohibit employees from placing recycling and organic waste in a container not designated to receive those materials types.

If you have any questions regarding the program, please contact Burrtec Customer Service at (661) 222-2249.

Edible Food Recovery Requirement

Certain businesses have requirements and responsibilities related to edible food recovery, such as:

- Not intentionally spoiling edible food that is capable of being recovered by a food recovery organization or service.
- Making arrangements via contract with a food recovery organization or service to recover edible food that would be redistributed for human consumption.

Is Your Business Affected?

Tier 1 Businesses - Effective January 1, 2022

- Food distributors
- Wholesale food vendors
- Food service providers
- Grocery stores and supermarkets (10,000 square feet or greater)

Tier 2 Businesses - Effective January 1, 2024

- Hotels with at least 200 rooms and an on-site food facility
- Restaurant facilities (5,000 square feet or larger, or seating more than 250)
- Local education agencies with an on-site food facility
- Healthcare facilities with an on-site food facility and 100+ beds
- Large venues (including shopping centers and malls) and events with 2,000+ daily visitors

Help Keep Food Waste Recycling Clean!

Senate Bill 1383 requires a **75% reduction in organic waste disposal**. All residents and commercial businesses are required to participate and **recycle organic waste, including food and landscape waste**. Food waste is collected, recycled and made into new products such as compost, mulch and renewable gas. **During the sorting process workers must remove non-acceptable material such as trash, plastic containers, glass and other contaminants.**

Cleaner Food Waste Load

(Contains fruits, vegetables and food soiled paper)

Contaminated Food Waste Loads

(Contains trash, plastic and cardboard)
